

The purpose of this rubric is to measure the alignment and overall quality of lessons and units with respect to the Washington State Social Studies Learning Standards and the Washington ELA and Literacy in History/Social Studies Standards. This rubric also evaluates lessons and units for integration with the College, Career, and Civic Life (C3) Framework. The rubric is divided into four dimensions:

I. Alignment to Standards	Each of these dimensions is rated on a scale of 0 to 3: 0—Does not meet any of the criteria in the dimension 2—Meets many of the criteria in the	1—Meets some of the criteria in the dimension
II. Teaching Strategies		3—Meets all of the criteria in the dimension
III. Instructional Supports		
IV. Assessment		

This rubric is designed to evaluate:

Lessons that include instructional activities and assessments that may extend over a few class periods or days

Units that include integrated and focused lessons that extend over a longer period of time

The rubric is not designed to evaluate a single task or stand-alone activity

Intended Use:

Review existing lessons and units to determine what revisions are needed

Inform the development of new lessons and units

Build the capacity of educators to evaluate and improve the quality of instructional materials for use in their classrooms and schools.

Reviewed resources may be in either print, digital, or online formats. They may carry different licensing types from open educational resources (OER) to all rights reserved.

Rating

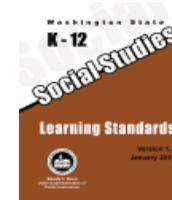

- Reviews using this rubric are best accomplished collaboratively, with team members providing specific evidence of how a resource meets dimension criteria.
- Look at the criteria in each dimension through the lens of the intended grade band.
- Check a criterion box only if there is clear and substantial evidence of the criterion (there are no “half-checks”). There may be instances when reviewers find clear and substantial evidence of a criterion and there are still constructive suggestions that can be made. In such cases, reviewers may provide feedback related to criteria that have been checked.
- For some resources, certain criteria will not be applicable. As a result, it’s acceptable to give a “3” rating without having all of the criteria checked within a dimension; just support all ratings with specific evidence.

If recommendations for improvement are too significant, then the rating should be less than a “3.” There should be a relationship between the number of checks and the overall rating. There shouldn’t be huge misalignment, but it comes down to professional judgment. Reviewers should stand back and look at the review in its totality.

Recommendations:

To effectively apply this rubric, an understanding of the [Washington State Social Studies Learning Standards \(GLEs\)](#), the [Washington State ELA and Literacy in History/Social Studies Standards \(Common Core State Standards\)](#), and the [C3 Framework for Social Studies State Standards](#) is needed.

Notes

- The rubric is designed to be printed on 8 ½ X 14 inch paper.
- Materials from other states may need to be adapted to work within Washington learning standards. Prior to any adaptation, make sure edits are permitted under the resource license type.
- Even an exemplary unit may have to be adapted to meet the specific needs of your learners. Teaching is a changing practice; there will always be new and updated resources.
