## ***EQUIP Rubric for Lessons & Units: Mathematics***

**Directions:** The Quality Review Rubric provides criteria to determine the quality and alignment of lessons and units to the Common Core State Standards (CCSS) in order to: (1) Identify exemplars/ models for teachers’ use within and across states; (2) provide constructive criteria-based feedback to developers; and (3) review existing instructional materials to determine what revisions are needed.

### **Step 1 – Review Materials**

- Record the grade and title of the lesson/unit on the recording form.
- Scan to see what the lesson/unit contains and how it is organized.
- Read key materials related to instruction, assessment and teacher guidance.
- Study and work the task that serves as the centerpiece for the lesson/unit, analyzing the content and mathematical practices the tasks require.

### **Step 2 – Apply Criteria in Dimension I: Alignment**

- Identify the grade-level CCSS that the lesson/unit targets.
- Closely examine the materials through the “lens” of each criterion.
- Individually check each criterion for which clear and substantial evidence is found.
- Identify and record input on specific improvements that might be made to meet criteria or strengthen alignment.
- Enter your rating 0 – 3 for Dimension I: Alignment.

*Note: Dimension I is non-negotiable. In order for the review to continue, a rating of 2 or 3 is required. If the review is discontinued, consider general feedback that might be given to developers/teachers regarding next steps.*

### **Step 3 – Apply Criteria in Dimensions II – IV**

- Closely examine the lesson/unit through the “lens” of each criterion.
- Record comments on criteria met, improvements needed and then rate 0 – 3.

*When working in a group, individuals may choose to compare ratings after each dimension or delay conversation until each person has rated and recorded their input for the remaining Dimensions II – IV.*

### **Step 4 – Apply an Overall Rating and Provide Summary Comments**

- Review ratings for Dimensions I – IV adding/clarifying comments as needed.
- Write summary comments for your overall rating on your recording sheet.
- Total dimension ratings and record overall rating E, E/I, R, N – adjust as necessary.

*If working in a group, individuals should record their overall rating prior to conversation.*

### **Step 5 – Compare Overall Ratings and Determine Next Steps**

- Note the evidence cited to arrive at final ratings, summary comments and similarities and differences among raters. Recommend next steps for the lesson/unit and provide recommendations for improvement and/or ratings to developers/teachers.

**Additional Guidance on Dimension II: Shifts** - When considering *Focus* it is important that lessons or units targeting additional and supporting clusters are sufficiently brief – this ensures that students will spend the strong majority of the year on major work of the grade. See the *K-8 Publishers Criteria for the Common Core State Standards in Mathematics*, particularly pages 8-9 for further information on the focus criterion with respect to major work of the grade at [www.corestandards.org/assets/Math\\_Publishers\\_Criteria\\_K-8\\_Summer%202012\\_FINAL.pdf](http://www.corestandards.org/assets/Math_Publishers_Criteria_K-8_Summer%202012_FINAL.pdf). With respect to *Coherence* it is important that the learning objectives are linked to CCSS cluster headings (see [www.corestandards.org/Math](http://www.corestandards.org/Math)).

### **Rating Scales**

***Rating for Dimension I: Alignment is non-negotiable and requires a rating of 2 or 3. If rating is 0 or 1 then the review does not continue.***

#### **Rating Scale for Dimensions I, II, III, IV:**

**3:** Meets most to all of the criteria in the dimension

**2:** Meets many of the criteria in the dimension

**1:** Meets some of the criteria in the dimension

**0:** Does not meet the criteria in the dimension

#### **Descriptors for Dimensions I, II, III, IV:**

**3: Exemplifies CCSS Quality** - meets the standard described by criteria in the dimension, as explained in criterion-based observations.

**2: Approaching CCSS Quality** - meets many criteria but will benefit from revision in others, as suggested in criterion-based observations.

**1: Developing toward CCSS Quality** - needs significant revision, as suggested in criterion-based observations.

**0: Not representing CCSS Quality** - does not address the criteria in the dimension.

#### **Overall Rating for the Lesson/Unit:**

**E:** Exemplar – Aligned and meets most to all of the criteria in dimensions II, III, IV **(total 11 – 12)**

**E/I:** Exemplar *if* Improved – Aligned and needs some improvement in one or more dimensions **(total 8 – 10)**

**R:** Revision Needed – Aligned partially and needs significant revision in one or more dimensions **(total 3 – 7)**

**N:** Not Ready to Review – Not aligned and does not meet criteria **(total 0 – 2)**

#### **Descriptor for Overall Ratings:**

**E: Exemplifies CCSS Quality** – Aligned and exemplifies the quality standard and exemplifies most of the criteria across Dimensions II, III, IV of the rubric.

**E/I: Approaching CCSS Quality** – Aligned and exemplifies the quality standard in some dimensions but will benefit from some revision in others.

**R: Developing toward CCSS Quality** – Aligned partially and approaches the quality standard in some dimensions and needs significant revision in others.

**N: Not representing CCSS Quality** – Not aligned and does not address criteria.
